**RATIONALE:** (Describe briefly existing problem and expected benefit of proposed change)

In Championship competition, a 28 target round can take five and a half to six hours to shoot. Land is getting harder and harder to acquire, and more and more clubs have 14 target ranges. Changing the definition of a Field Round from 28 targets to 14 targets will allow the option of shooting either a 14 target Field Round or a double 14 target Field Round.

**PROPOSED CHANGE OR ADDITION:** (Must be in exact wording)

New Item       Revision       Const.       By-Laws       Policy   
 Page 48      Article VI      Section A      Para 1      Item \_\_\_\_\_

Replace first three lines with:

“1. Standard Round: A round shall consist of 14 targets. At the following distances four arrows shall be shot from the same stake:”

The NFAA Expert Field Round is in actuality simply an optional scoring method for the Field Round and thus does not require a separate "Round" Classification.

**RATIONALE:** (Describe briefly existing problem and expected benefit of proposed change)

When the Animal Round is scored along with equal targets of Field and Hunter, the Animal Round Score becomes a make or break event... the Bonus Spot Scoring gives an inflated value to the Animal Round at a three round National Event. An adjustment of the scoring will make the round commensurate with Field and Hunter in Outdoor competition.

5. Scoring:

- 5.1 With bonus Spots (National and Sectional Mandatory):  
 20, 19, 18 for the first arrow  
 16, 15, 14 for the second arrow  
 12, 11, 10 for the third arrow
- 5.2 Without bonus Spots:  
 20, 18 for the first arrow  
 16, 14 for the second arrow  
 12, 10 for the third arrow
- 5.3 In all NFAA Rounds, an arrow shaft need only touch the line to be counted in the area of next higher value.

Article IX – Paragraph H

Adult and Young Adult members of NFAA may earn an Animal Perfect Pin by shooting a first arrow kill on all 14 targets of a 14 target Animal Round unit. With bonus spots, this means a score of 19 or better on each target of the 14 target unit. Without bonus spots, this means a score of 20 on each target of the 14 target unit.

The NFAA Indoor Championship Round is simply a duplication of the NFAA Indoor Round with slightly different scoring. For our Championships, we use the NFAA Indoor Round. If an optional scoring system is desired, it should be placed as a sub-paragraph under the Indoor Round. This "Round" is simply confusing to the average archer seeking guidance for indoor archery.

The NFAA 810 Target Round is no longer used. It has been replaced by the 900 and 600 Rounds. The 600 Round is an abbreviated version of the 900 Round that is used where a shorter time span is desired – it comprises 60 arrows (instead of 90 arrows) in four five arrow ends (instead of five six arrow ends). It is the game that we use at the Stanislawski Open Tournament in Pittsburgh.

NFAA 600 Target Round:

1. The only difference between the 600 Round and the 900 Round is the number of arrows per end and the number of ends per distance. All other rules apply.
2. 20 arrows will be shot at each distance in four ends of five arrows for score.
3. The time limit shall be 4 minutes per end.

The FITA Field Archery Round is not an NFAA event. It is an NAA Round whose rules are controlled by FITA. It does not belong in our Rule Book. Anyone needing information about it can get that information from the current FITA Rule Book, and anyone managing FITA Field Competition does so under NAA.

**RATIONALE:** (Describe briefly existing problem and expected benefit of proposed change)

The Classic (or what ever name our directors may desire) 600 Round is the special format of the 600 Round that we use at the Stanislawski Open in Pittsburgh. It differs from the 600 Round in that we shoot at a smaller, NFAA owned, 92cm multicolored face (identical other than size to the 122cm face used on the standard 600 and 900 Rounds), and we reverse the order of shooting to the more difficult short to long distance sequence that has the archer shooting the more difficult distance when fatigue may have set in. This game is standard for our NFAA owned major event.

P. Classic 600 Target Round: Rules same as 600 Round except as follows –

1. The NFAA Archery Classic 92cm Target Face shall be used. At the discretion of tournament management, the center version of the Face may be used utilizing only the 6 through 10 rings.
2. The round is shot starting at the closest distance and progressing to the longest distance.

After the words.... "300" animal round... include...Lake of the Woods round,

**RIC 2006 - 6**

Protest: The archers involved are protesting the decision of the protest committee.

The score of an arrow on the animal round was changed by the protest committee with out consulting all the archers involved. This was a dispute, not an actual protest. There was no money involved.

The protested archer shot the wrong face on the animal round. The archer verbally announced to the group that she did indeed shoot the wrong face. Then she proceeded to shoot the correct one & scored it correctly. The following day the archer came to the committee to plead her case, stating that there are no rules for the animal faces & that everyone else is probably not doing it correctly. Page 44 H 3 out door shooting rules, states

“when shooting at butts with multiple faces, the first shooters up will shoot the bottom ...”

The committee voted to restore the points taken because of a previous decision on another matter

The protestors found out later that the score had been changed & filed the protest the following morning.

The committee was re convened at the end of the shooting day with all concerned present. It was a unanimous decision to over turn the committee’s first decision & subtract the points that were first given.

**RIC** Agrees with the protest committees decision to over turn the committees first decision. That indeed the archer should lose the points.

**RIC 2006-7**

Michigan Director was asked at an indoor Sectional & two State indoor shoots if an archer may change from a single spot face to a five spot face, or the reverse during the tournament. The director ruled no. The director then researched the constitution & found nothing to the contrary. He then ruled that an archer may change faces during the round.

The director also stated that at the NFAA 2006 Nationals that the tournament rules stated that an archer must shoot the same face both days.

**RIC:** Committee agrees with the director, that unless the tournament rules prohibit the changing of target faces, it is allowed.

The RIC agrees that the tournament committee may set any rules for the tournament as long as there is no conflict with the rules of the constitution.
