6. Agenda Item SE-1 – Florida will complete an agenda item requested by the President of the Crossbow organization to add equipment and shooting restrictions that were left out when last year's directors' meeting committee deleted the reference to crossbow organization rules. Tim Austin will submit. Approved.
7. Agenda Item SE-2 – Florida will submit an agenda item to make Animal Group I distances in the Range Captain's Guide in the back of the rule book agree with the distances stated in the By-Laws. Approved

8. Agenda Item SE-3 – Georgia submitted an agenda item to add FAX and E-Mail to methods of submitting agenda items to NFAA. Approved.
9. Agenda Item SE-4 – Georgia submitted an agenda item to add FAX and E-Mail to methods of submitting Sectional Meeting agenda items to NFAA.
10. The Southeast Pro Representative shared the list provided by NFAA for Pro members in the Southeast. The list was inaccurate: It includes individuals who have not been NFAA members for as long as a year and includes individuals who have not paid Pro dues. It also does not include individuals who competed in the NFAA Indoor Nationals as Pros and thus must be current Pro Members. The Pro representative needs an accurate listing from NFAA that includes: a. A column listing the current NFAA Membership expiration date. b. A column listing the current Pro expiration date. And c. A column listing the shooting style for separation of pro money and points.
11. We need to share State Shooting Schedules between neighboring states. Shared shoot date information across state lines is needed to promote participation, especially with the constantly shrinking availability of Field Ranges.
12. The Councilman voiced an opinion for a critical need for archers to share in the workload of developing and MAINTAINING Field Archery Ranges. If you build and maintain the facility, archers will come and play. For every 20 who come and play, you may find one who is willing to help maintain the range.
13. RIC 2005-1 and 2005-2 were read at the meeting.
14. Meeting adjourned at 8:00 PM.

Timothy O. Austin  
Southeast Councilman
